WAINWRIGHT, ALBERTA, WEDNESDAY SEPTEMBER 10th, 1924

PRICE \$2.00 Per Year in Advance

EXTRA DIRECTION POSTS ARE TO BE ERECTED IN TOWN

The following are the official minutes of a regular meeting of Town Council held on Wednesday last when all the Councillors were present with Mayor Gerow in the chair.

The minutes of previous meetings were passed as read.

A letter was received from Mr. A. Warren, general manager C. N. R. regarding the possible erection of a natural gas plant and asking parties share with regard to price of gas from town.

Cork-Huntingford — That the communication be acknowledged and filed. — Carried.

The Committee appointed to deal with the matter of a hospital for the town reported that a reply had been received to your enquiry, which stated that Archbishop O'Leary was absent from his home just now, but that the matter of the hospital would be taken up by him immediately upon his return. This report was tabled to be dealt with at a subsequent meeting.

A deputation aided upon the Council in the persons of Rev. J. McLagan and Mr. W. Bowen, representing the Wainwright Curling Club, asking that owing to the congestion in the curling season, that the Council enter in some arrangement with the club whereby the present premises can be so altered that another rink can be incorporated, thus relieving the existing situation.

The delegation received the assurance from the Mayor that the Council would go fully into the matter and advise the club if it is possible to enter into any agreement, this present season.

An account from the Atlas Lumber Co., amounting to \$34.75, for material used in the alterations at the rink was placed before the Council for consideration.

Huntingford-Cork — That the resolution of this Council dated July 3rd 1924, dealing with the C. N. R. club and the rink renting, be and is hereby rescinded. — Carried.

Lisimore-Fraser — That the account of the Atlas Lumber Co. for the material to fix the rink be paid, and that the Council rent the upstairs rooms to the C.N.R. Social club for \$10.00 per month. — Carried.

The Finance Committee reported having examined accounts and recommended payment of same:

Deputy Min. Mun. Affairs	\$88.00
M. Rubinok, salary	75.00
J. Christie, painting	12.00

A. Arden, policing	2.00

METHODIST MISSION BOARD PASS GRANTS TO VARIOUS FIELDS

The financial district meeting of the Wainwright district of the Methodist church was held in Grace church on Thursday last, Rev. G. Pybus chairman of the district presiding.

Nearly all the ministers of the district were present, although owing to doubt to the busy season very few laymen were in attendance. The financial status of each mission was reviewed, and grants requested from the Board of Missions for the various fields were passed, besides the transaction of other routine business.

In the evening, the Rev. Geo. Driver, of Calgary, who was present with Rev. T. Powell, supt. of missions gave a lantern lecture on "The financial status of the Methodist mission work in Canada, this being very interesting and revealing much of what we owe to the pioneers of the church.

At supper time the Ladies Aid entertained the delegates in the parsonage with a sumptuous meal and an enjoyable time was spent in social intercourse.

WEDDING BELLS DERBYSHIRE-HODGSON

A quiet and pretty wedding was solemnized in Wainwright, on September 4, when Greta, second daughter of Mr. and Mrs. W. Hodgson, became the bride of Peter Derbyshire, only son of Mr. and Mrs. C. Derbyshire both of Edmonton. The bride was charmingly attired in a suit of sand point tulle, embroidered in blue and was attended by her sister Miss Ethel Hodgson, who wore a gown of brown moiré crepe. Mr. Eddie Gehring, attended the bridegroom.

The bridegroom's gift to the bride was a Ford coupe, to the bridemaid a dinner ring and to the best man a set of cuff links.

The happy couple will make their home in Wainwright.

MAPLE LEAF OIL COMPANY WILL DRILL SIX MORE WELLS

With the same rotary drill which brought in the first oil well in the Wainwright field, with the same drill (Davy Credille), after whom the producing sands in this territory have been named, at the throttle, with the same (or greater) spirit of confidence in results; and with the same absolute determination to thoroughly prove the field and give all shareholders the best possible returns for their money, the Maple Leaf Oil Company, through its managing director, Mr. Roy Williams, and its superintendent, Mr. Fred Beresford, started on the second well on Monday last. It is presumed that a few days only will be required in the erection of the derrick after which the drill rig will be put to work in such manner as it is confidently expected that about thirty days will see the well very nearly if not quite completed.

This well will be about 200 yards north of the first hole, on the same legal sub-division.

The No. 1 well of this company is now cemented in after a hard struggle with the enormous gas pressure which was encountered, and this is to be left until the 17th of this month so as to give it all chances of setting properly. It will then be drilled into, and the oil sands also, which it is quite fully supposed by all connected with the well that it will prove the biggest producer to date in this field.

We learn also from Superintendent Beresford that the contract has now been signed for further work for his company, and that no less than six more holes are to be drilled, and work will continue all through the winter in the quest for more producers for the stockholders of this concern.

NO CURTAILMENT OF VENDING SYSTEM BY GOVERNMENT

With the first three months of the government control and sale of liquor completed this week, the officials in charge of the administration have had brought home to them the realization that the government stores or the sale of hard liquors are not to be the money makers that some believed they would be. In fact to those who thought that liquor profits would be a means of quick reduction of taxation the disappointment will be keen. In the financial records of the first three months are any criterion of what the year's profits will be.

Commissioner Dinning has admitted that the business in government stores was very small after the first few weeks, when the novelty of the new experience had worn off.

"We have reduced the staffs of the stores when the business began to drop," he said, "but the report that any of the stores are to be closed in the near future is not correct."

The commissioner said that the intention of the board was to give the new law a full year's trial before there was any curtailment of the vendors it was quite possible, he said, that when the winter came there would be considerable increase in the demand for the hard liquors.

***A cordial invitation is extended to the ladies of Wainwright and district to visit our Fall Millinery Display Wednesday and Thursday September 10th and 11th. New Fall Fashions are cleverly illustrated in this shop. Mrs. C. M. Miller, Millinery Parlors, Main St.

MR. A. F. COYNE SAYS MINERAL WEALTH STILL LYING DORMANT

"If Canada doesn't produce her own industrial magnates," says Mr. Alfred F. A. Coyne, consulting petroleum geologist of Toronto, in an article which has been forwarded to publication, controlling Canadian industrialism "the Morgans Carnegies and Rockefellers industries will come here anyway: Ford is here now, and if you all knew as much about the other interests, you might also find out they too have taken root."

It can therefore be said that the basic industrialism which is to be of export importance is not yet born while at the same time the super expansion of these gigantic American Industries, must eventually obtain their raw materials elsewhere than in the United States, and will they go to China for them? If so why? The future of Canada, therefore, lies in her mineral wealth, and here we are already at the stage when it can be said with some degree of truth "That the mineral wealth of Canada lies dormant, as a reserve storehouse for the exploitation and aggrandisement of the industrial and financial expansion of the United States on the shores of the world." One can tie a handkerchief around one's eyes and plug one's ears with pulp, and deny the fact, but the fact remains just the same.

The Standard Oil
Much has been written for and against the Standard Oil Company. There are hosts of people who verily believe that it is worth while, the Standard would have had it long ago. These misinformed folk do not take cognizance of the fact that the great oil fields of Spindletop, Oil, Bartlesville, Colings and scores of other rich oil producing areas, were discovered and are to-day operated by independent companies.

It is common knowledge that the oil fields of the United States are reaching the point of decline—that is the depletion of the world's oil makes it to be continued by American oil industrialism, hence we find the expansion of American oil industrialism taking form in Russia, South America and Canada. The public at large know their world only through the columns of the daily papers, and it is not to these sources that the large development programs now being carried out in the various countries by American-controlled oil subsidiaries tell their stories of success. New Jersey takes care of that, for the simple reason it is nobody's business.

I was in London, during the time that the International Petroleum was in the air. This company is controlled by the Imperial Oil of Canada, which in turn, of course is eighty per cent controlled by the Standard Oil Co. called the International Petroleum is called a Canadian Company? True Canada gives refuge to the American magnate against the recurrence of the difficulties experienced by the Standard in the Anti-Trust Law, thus adding a very essential force to the invasion of the oil resources of Canada by American Petroleum industrialism.

The Royal Dutch Shell
I was sitting in the same offices in London during the momentous meeting of the joint Boards of Directors of The Trinidad Central Oilfields Ltd and the Royal Dutch Shell, at the time when these joint Boards were discussing the proposal of amalgamation, a short time ago, and London finance was on its edge, and oil was the hottest topic of the London Stock Exchange. It therefore impelled me to impressions of the greatness of the oil world and also the easiness of the opportunity in this field of endeavor, provided serious minded men of substance with more mind than money, can be got together, for were not these big men in this office small some twenty years ago? Was it not a fact that if these great industrial magnates had waited upon the whims and decisions of the then great men of their time, that this great meeting with the Royal Dutch Shell never would have been. I wondered what Rockefeller thought at his momentous meeting in Cleveland, Ohio, years ago, when he put his project up to Adams, Flager and Harlan, a proposition that the so-called "big game" of his time would have scored.

I then allowed my mind to wander the odd few thousand miles back to Canada and said to myself, "where are the small men of Canada with the great minds of the future who can come together and found the grand industrialism of the Dominion of Canada?"

It is no mere assumption to say that the potential oil resources of Canada

CROSSING THE BAR AGNES McDONALD.

There passed away on Sunday last Agnes McDonald at the age of 24 years. The deceased has lived for the past eighteen months with one of the Beaudry families in town, and was only sick for a couple of weeks.

The funeral took place on Tuesday the arrangements being in charge of the McClelland parlors.

Sympathies are expressed with the aged mother and father of the deceased who reside at Slave Lake with four brothers and two sisters.

***Your lifetime's savings can be won in a few minutes by fire unless protected by a strong insurance policy in a sound company represented by Joe Welch, phone 57.

BRITANNIA OILS LTD WILL TWO WELLS IMMEDIATELY

We learn on the very best authority that arrangements are being made with the Edmonton Gas & Development company—the successful operators of the first B.P. wells—to drill two holes for the Britannia Oils Ltd. The first of which it is announced will be placed close to the site on which the Western Consolidated Oils is now being drilled. It is also understood that the work will be in charge of David Credille, after whom the productive northern Alberta stratas are named, and who holds the record as the pioneer oil producer.

The Britannia Oils Ltd. is operating under a Dominion charter and at present time possesses over 12,000 acres of leases in the Wainwright field located in townships 44, 45, 46 and 47 ranges 5, 6, 7, 8 and 9, west of the 4th meridian.

The acreage is located on formation selected and recommended by S. E. Sliper, petroleum geologist and Dr. Allan professor of geology at the University of Alberta. The lands extend along Buffalo Coulee and north east along Battle river and south to the present producing wells.

The company was organized by Mr. A. Aikroyd of Wainwright one of the first—if not the first—to awake on the part of the fact that the local oil field was just that and not a barren barren of the field, as some interests greatly wish Canadians to believe. He is managing director of the company the other officers being as follows: President, Dr. E. W. Allin; treasurer, Dr. W. D. Chappelle, who are on the directorate as well as Jethro Chang, and A. R. Golding of Toronto.

The leases owned by the company were purchased outright and consequently there are no royalties payable; the officials of the company state that none of the directors are receiving salaries, there are no promotion expenses and the company's capital will be used entirely in sinking holes and producing oil. The greater portion of the company's holdings lie at an elevation of 300 feet above the oil structure, these having been prepared and checked by Mr. Sliper and Dr. Allan geologist. From the location of the leases, the company is sanguine of success, which assumption is to be proved by the drill at an early date.

***For picking spices ask for the "Nalco" line at Gerow's drug store.

***Black Diamond & Pembina lumpy coal is now selling for \$6.50 per ton at the Atlas yard. Phone 57.

As are great as those of the United States have proven to be. The very fact that the United States is the southern half of the same continent of North America, is one item that deserves minute consideration, when we talk of natural resources and their possibilities.

The correlation of oil-fields is one when viewed from the manner of their occurrence, on scientific grounds: It is only difficult to the man who cannot comprehend otherwise than through the spectrum of national boundaries, thus we come home to Canada, and find that the correlation of its geology with the United States casts thinking minds to appreciate that the great oil fields of the United States must extend northwards into Canada, recognizing no boundaries in the geography of the two countries, and was it not American money that proved this to be the fact, so we know today that these great oil fields of the United States lie, even into our Canadian Arctic at Fort Norman?

It is no mere assumption to say that the potential oil resources of Canada

NOS. 3 & 4 WELL BRIT. PET. WILL RECEIVE OFFICIAL TEST MONDAY

So as to prove to all and sundry exactly what will be the production from the No. 3 and No. 4 wells of the British Petroleum Ltd., an official test of these holes will be made on Monday next.

This information is authenticated by Mr. Newton W. Emmens, the company's superintendent, and geologist. Tests will be given before a body of men comprised of the new directorate who will arrive from Vancouver at the week end. We understand also that it is the intention of the Edmonton Board of Trade to have several of their officers heretofore the test, and in addition members of the press have been invited to be present. In all probability, also, Lieut-Governor Brett will be down, as well as one or two of the prominent geologists who are at present in the west. The demonstration will not be open to the public at large, although no doubt there will be a large gathering "crowding the fences."

The location of the No. 5 well has been decided this week by Mr. Emmens and this will be located on L. S. 4 29-45-6; this will bring the new hole a short distance north and east of the present wells.

The timbers are all here for the derrick for both Nos. 5 and 6 wells, although the location of the last named will not be fixed until the end of this week. One of the big rotary rigs at present in use will be moved over to No. 5 as soon as required for work there.

At Number Three a reservoir has been dug to take care of the oil. This pit has a capacity for 30,000 barrels, it being the intention of the oil company to allow the well to flow to a considerable period in order to

SHOOTING SEASON FOR WILD BIRDS OPENS SEPT. 16TH

The coming shooting season promises to be one of the most plentiful in Alberta. Reports coming in from all portions of Alberta indicate that there will be an abundance of both prairie chicken and partridge. Farmers are complaining bitterly of the havoc wrought by the partridges and suggestions have been made that representations be made to the government to prolong the season and lift the "bag" limit.

The partridge is slated to be the worst offender in damaging crops and gardens, and there is not the last doubt that this bird is very plentiful this season. Reports that the coveys are extremely plentiful and that they are also large is having the effect of stimulating the gun repairing industry and a great many guns that were put away at the close of the shooting season last year are now being dug out for overhaul.

City sportsmen are looking forward eagerly to the opening date, and the general topic of conversation among them is "How will the dog shape this year?" While others who have purchased new sporting dogs are wondering if they will live up to the vendor's guarantee.

Already several parties have been arranged for the opening day and September 15 will open to the sound of shot guns throughout the province.

Duck shooting will not be general over the province until the birds have had some time on the stubble, as sportsmen do not consider that they are really at their best until the end of October. That the duck shooting will be excellent this fall is borne out by reports coming from the north, which state that already the ducks and geese are flying southward, and are not stopping over at their usual halting places but are coming direct to the lower water regions. The effect of this is that the ducks will be in better condition at a much earlier date this year.

The Billings Bakery has added considerably to its appearance by the addition of a nice new sanitary display counter and show case. And Tom is making other improvements too, all for the benefit of the consumer!

***A treat is in store for those who attend the Rebekah whist drive tonight at the club rooms in the rink. After the drive and lunch ticket holders will be given a free dance. A good five-piece orchestra will be on hand with all the newest music. Get your 50c ticket and have a good time.

that it may clog. The standard of oil piping is now being prepared, and all is ready just as soon as the cement in the drilling is sufficiently hard.

The Number Four well is in the same condition, and Mr. Emmens expects to test this hole not more than 48 hours after Number Three. A large reservoir is also being provided at Number Four.

ANOTHER OIL COMPANY PREPARING TO DRILL

Financed by eastern capital with the intention of drilling in the Wainwright field the Marquis Oil Company Ltd. has been organized. The company was formed in the first instance by Mr. Dick Aikroyd of Wainwright, but this head office is to be in Toronto.

Three members of the board of management of the Union Trust Company are on the directorate of the new company, which controls a total of about 13,000 acres of land. It is the intention of this company to be in the field within a reasonable time and preparations are now being made to this end.

EFFORT BEING MADE TO EXTINGUISH FIRE AT GRAT-TAN WELL

The Imperial Oil Company have had a gang of men assembling equipment to extinguish the fire that has been burning for the last two weeks at the old Grat-Tan Oil Company's well on Section 44-8-4. Two heavy poles have been set on each side of the well and from these a heavy cable has been stretched about twenty feet over the top of the casing. From this a large pipe will be slung over the flame thus diverting the fire high enough to enable the men to work. A steam boiler is being moved to well and as soon as the pipe has been placed and the boiler connected to the bottom it should be only a matter of a few seconds till the flames are extinguished after the steam is turned on. The heat has burned the packing in the control head thus allowing more gas to escape from it, but otherwise the fire is burning the same as a week ago.

ARE HARVESTERS TREATED RIGHT?

WINNIPEG — Does the west do the right thing by the men who harvest its wheat? This was the question asked by Sir Wm. Ashley, of the University of Birmingham a noted economist who addressed a luncheon tendered to visiting members of the British Association for the Advancement of Science at the Agricultural college yesterday. "If I had to employ harvesters, I would be greatly disturbed by the annual newspaper stories reporting suffering and want on the part of the men who have been working on the farms," Sir William said.

This practice of turning away men and forgetting about them once they have served the farmer's purpose is a shocking state of affairs. The Industrial Workers of the World are organized to oppose this sort of thing and they are growing into a force which will have to be reckoned with," he warned.

MEMORIAL SERVICE FOR HONORED DEAD HELD BY I. O. O. E.

The annual memorial service for those who paid the supreme sacrifice in the Great War, was held in the theatre on Sunday afternoon last under the auspices of the local chapter of the I.O.O.E. and was fairly well attended. The service was of a most fitting character and well conducted throughout. The Rev. J. McLagan presided and led in prayer, the Rev. A. Love read the scriptural passage and the Rev. G. Pybus delivered the address.

Mrs. G. L. Hudson sang very heartily an appropriate solo, being accompanied at the piano by Mrs. G. Pybus.

Many floral tokens were contributed by friends and relatives, and after the service these were placed upon the memorial plot at the cemetery where a brief prayer was offered and the "Last Post" sounded.

THE EXAMINERS'
WEEKLY REVIEW OF
PROV. MARKETS

CATTLE

BEEF—Quality at Edmonton not
just as good this week, but prices
about same though market somewhat
listless. Choice heavy steers \$4.50;
\$4.75; choice light \$4.50 to \$4.75; good
\$4 to \$4.50; medium \$3.25 to \$3.75; com-
mon \$2.50 to \$3.25. Choice heifers \$3.50
to \$3.75; good \$3 to \$3.50; choice cows
\$2.75 to \$3; good \$2.50 to \$2.75; medium
\$2 to \$2.25; common \$1.50 to \$2; can-
nel down to \$1. Bulls rather slow at \$1
to \$1.50. Calves unchanged at \$3.75 to \$4
for choice vealers and others \$2 to \$3.
FEEDERS, STOCKERS—Choice
quality steers are finding steady sale
but common stuff not moving; feed-
ers \$2.50 to \$4; stockers \$2 to \$3. Stock
heifers \$1.50 to \$2.50. Stock cows \$1.25
to \$2. Springers are \$3 to \$4 by the
head.

HOGS
Edmonton market has also suffer-
ed and the buyers refused to bid up
and sales yesterday at \$3.50 to \$3.75
for the thick smooths, and the usual
premium for bacon hogs.

SHEEP
Edmonton supply of fat sheep also
light and lambs up to \$12; yearlings
up to \$9 and ewes \$4 to \$6.50; good de-
mand for breeding stock.

GRAIN
More or less fluctuation in the mar-
kets, but nothing more than is to be
expected at this season Alberta crop
is ripening slowly but the cutting area
is being extended steadily. The crop
that was estimated as being good are
There has been a little frost, but nothing
serious.

BUTTERFAT — CHEESE
CREAM—Alberta prices unchanged
on basis of 32c for specials; receipts
keeping up well, but likely to drop
now that harvesting works advancing;
Northern Saskatchewan prices
same as Alberta; Southern Saskatchewan
slightly lower; Manitoba prices still
out of line. **CREAMERY BUTTER**
—prices unchanged and market looks
firm, with shipping continuing to the
old country and cars also rolling east-
car lots, basis specials, at 32 1/2c to 33 1/2c
CHEESE—Market quiet and
eastern make now being shipped by
water. At Vancouver and competing
with Alberta cheese at same freight
rate. **DAIRY BUTTER**—Market
paying shippers 24 to 26c for fancy
table; dealers quote No. 1 worth 20c.

EGGS—POULTRY
EGGS—Calgary prices due to ad-
vance next week about 3c. Edmonton
quoting extra 28c; No. 1 24c; No. 2 18c
cracks 13c. Receipts light. **POULTRY**
—Demand light and prices low; good
chickens 14c; fowl 9 to 11c alive; not
much demand for dressed stuff, ex-
cept sales to markets and butcher
shops.

HAY
Haying operations running into har-
vesting in most parts of the province
no movement of any volume and
prices had to quote.

POTATOES
Alberta crop maturing nicely, and
though there has been slight frost, it
will not be serious as a whole.

The reason some people are al-
ways in a hurry is because they
are always behind.

WAINWRIGHT, ALBERTA SEPTEMBER 10th, 1924

The most unique work of de-
mocracy, in all history, is being
accomplished in North America.
Something that has never been
tried in the history of mankind
before—a welding together of
people of different races and
tongues into a free democracy,
speaking one language and gov-
erning themselves under a re-
presentative government.

The true nature of this mighty
work will best be known when
the days in which we now live
have become history. We, to-day,
who are taking part in the im-
mense movement can only see it
in part; and our attention is given
most easily to the unsatisfac-
tory and displeasing present ef-
fects than toward the end to
which we should be working; viz,
the welding of all into a free de-
mocracy.

This work is one of the great-
est magnitude, and in no section
of North America is this work
being accomplished more rapidly
and thoroughly than on the prairies of the Cana-
dian north-west. At the present
time on the Canadian prairies, no
less than forty-two per cent of
the dwellers are foreigners and
fifty per cent of our prairie
school children are foreign; and
some hundred and five thousand
of the people of the prairies are
unable to speak the English lan-
guage. No little wonder that we
are, at times, somewhat doubtful
about being able to install Cana-
dian ideals into the minds, hearts
and affections of such a large
number of foreign-speaking peo-
ple.

The Fathers of Confederation
were deeply inspired when they
gave attention to the words of
Psalm 72, verse 8: "He shall
dominate also from the sea to
the ends of the earth," when selecting
the name "Dominion" for Canada.
Their vision was of a confederat-
ed Canada reaching from the At-
lantic ocean to the waters of the
Pacific ocean, and from the beau-
tiful sweep of the St. Lawrence
river to the end of the earth—the
north pole.

Man's progress is slow. Near-
ly one thousand years after the
words of this verse were written
their fulfillment came to pass in
the birth of the carpenter's son
at Nazareth—the One who, be-
ing Saviour, should draw all men
unto Him, so that in this way His
teachings should have dominion
over the world as it appeared
to the ancient palmist. Now, at
a stage of history, perhaps three
thousand years after the original
writing the vision remains as a
guiding light in the task of to-
day.

To-day's task is, to accomplish
politically, in Canada, that which
the Saviour has accomplished in
a spiritual sense. Viz, the con-
ception of the ideal of brother-
hood. A brotherhood that shall
so influence our behaviour and
conduct, that we shall be welded
into a community who do right,
because of their love of right and
truth.

Among the Fathers of Confedera-
tion, one of the most picturesque
figures was that of D'Arcy Mc-
Gee, an Irishman, who for two-
thirds of his life was a rebel
against British rule. We will
borrow from his speech to the as-
sembly for his strong "individual-
ism" sees unity accomplished
through sincerity of effort by
each individual. He says:

"All we have to do is, each for
himself, to keep down dissen-
sions which can only weaken, im-
prove and keep back the country;
each for himself do all he can to
increase its wealth; its strength
and its reputation; each for him-
self, you and you, gentlemen, and
all of us, to welcome every talent,
to hail every invention, to cherish
every gem of art, to foster every
gleam of authorship, to honor

every acquirement and every nat-
ural gift, to lift ourselves to the
level of our destinies, to rise above
all low limitations and narrow
circumscriptions, to cultivate that
true catholicity of spirit which
embraces all creeds, all classes
an all races, in order to make of
our boundless province, so rich in
known and unknown resources, a
great new northern nation."

There is no greater responsi-
bility than that resting upon the
editor of a newspaper. The late
Doctor Talmadge said: "The
newspaper is the great educator
of the nineteenth century. There
is no force compared with it. It
is book, pulpit, platform, forum,
all in one. And there is not an
interest—religious, literary, com-
mercial, scientific, agricultural,
or mechanical—that is not within
its grasp. All our churches, and
schools, and colleges, and asyl-
ums, and art galleries feel the
quaking of the printing press."

Every man who has anything
to do with the making of a news-
paper should take pride in giv-
ing it a character for truth and
wisdom. "I saw it in the news-
paper" ought to be sufficient
evidence of the truth of an asser-
tion.

But newspapers are human in-
stitutions, and are good or bad
in precise proportion to the char-
acter of their makers. Some are
avaricious and look at all ques-
tions through the business office.
Some are timid and apocryphal,
and some are weak and foolish.
To put them all in a class would
be as unjust as to put all men in
the same class.

The world would be a stupid
place to live in if it were not for
the newspapers, and it would also
be a much more cruel and tyrannical
world. Besides being a terror
to evil doers, the newspaper
inspires heroism, patriotism, phil-
anthropy, and integrity. When
the newspaper becomes a traitor
to its trust, and the people lose
faith in its sincerity, God help
the republic!—The McClure
(Pa) Plain Dealer.

We are nearly past the time of
estimating in regard to the crop. In
the more optimistic tendency of
the estimates that are being made.
A few weeks ago, with gloomy forebod-
ings, we were being told that Alberta
would not produce 40,000,000 bushels
of wheat this year. The Dominion
government estimate surprised
and pleased everyone by placing the
crop at 70,000,000 bushels. The wheat
pool authorities believe that it will run
nearly 75,000,000 bushels, and then es-
timate of the Manitoba Free Press is
that it will possibly reach the approxi-
mate total of 115,000,000 bushels. The
promise well.

TENTH CROP REPORT

Harvesting of the wheat crop is
proceeding now in Alberta under var-
ied conditions. In southern portions
of the province, the cutting is from 15
to 25 per cent completed, while in the
central and northern districts, harvest-
ing operations have just commenced,
and will not be general for a fortnight.
In the southern areas late rains have
improved the grain crops somewhat,
and warm weather has aided the fill-
ing process to such an extent that
yields in some districts will be larger
than at first anticipated.

In the central and northern districts
chiefly in the districts adjacent to and
north of Edmonton, heavy rains in
the past week or two have somewhat
retarded the ripening process, and
harvesting will consequently be de-
layed another week or two. In these
districts the warm weather needed
has not materialized to the extent
which might have been desired. Never

PUBLIC NOTICE

TOWN OF WAINWRIGHT

Tenders For
Draying Coal

Sealed Tenders will be received by
the undersigned up to Six O'clock
p.m. on Wednesday, September the
Seventeenth for the Draying of ap-
proximately 1,000 tons of coal for use
at the power plant of the Town.
The lowest or any tender not neces-
sarily accepted.

Tenders are to be marked "Tender
for Draying Coal" and to stipulate the
price per ton for the work.

H. Y. PAWLING
Sec. Treas.

your pret-ty little love tales

domma confessed, "and I have
been amazed. This is a wonder-
ful thing in it is the music.
"The light sentimental ballad
like 'Love Tales' is perhaps the
best example of what I mean.
It is like a fairy caprice with
all the mellow flow of a modern
fox trot and it has a strain of
the stately that is a reminiscence
of other days.
"Do you know what I think—
Yes, honestly? American mu-
sic, the kind you are developing
today, is going to be your most
precious heritage to coming gen-
erations!"

There is one bank for every
1,879 people in Western Canada.

He: "I could face death dan-
cing with you."
She: "You probably will if
my husband sees you."

Alberta Butter For Britain
Shipments of Alberta creamery but-
ter continue to be forwarded direct
to England.
Shedless, these areas will yield some
very satisfactory crops of grain.

One feature of the situation during
the past few weeks has been the fact
that the weather has been ideal for
the process of filling and the indica-
tions are that the grain harvested
will be of a very good sample.

Thus far there has been no dam-
age from frosts and very little damage
from any other cause in any part of
the province save from that of
drought.

The recent rains have been of great
benefit to the later maturing crops
such as oats and barley and to feed
crops. Grass has improved in growth
and the oats and barley crops are filling
that it will possibly reach the approxi-
mately satisfactory, and other feed crops
will be of a very good sample.

Here and There

Glass tubes filled with water are
used as incubators for trout eggs
at the Ontario Government Hatch-
eries.

Designed to prevent mildew, a
California has invented a device
which sprays wet or dry sulphur
over grape vines.

More than 50 tons of food are re-
quired daily to feed hogs on a
California ranch and it is distrib-
uted by means of an electric rail-
way using side dump cars.

The light producing apparatus of
the glow worm and firefly is said to
be the most efficient in the world.
The glow worm light is eighty times
more efficient than a tungsten
lamp.

Construction of a million and a
half dollar factory building has
commenced in Ontario.
which, when completed, will give
employment to 500 hands. Arti-
ficial silk will be manufactured
from pulpwood.

Crossing from Cherbourg to Que-
bec in 5 days 19 hours, the Cana-
dian Pacific S.S. Empress of France
created a new record for the trans-
Atlantic voyage. Her average speed
on the record run was 20.155 knots.

Montreal officers of the Dominion
Express Company state that the
strawberry shipment this year have
been much heavier than heretofore.
The Ontario crop ripened quickly,
but was sadly disposed of.

BULLETIN FROM
PROVINCIAL GOVT.

Tar Sand Expert Here

Alberta's extensive tar sand deposits north-east of Edmonton, were visited during the past week by an expert in this line in the person of Robert M. Birk, of Chicago, who has access to considerable capital, which might be employed in the development of these sands, if Mr Birk reports favorably on the matter of extraction of oil and bitumen. Mr Birk visited the deposits in company with Howard Stutchbury Provincial Trade Commissioner.

Alberta Butter for Britain and Orient More Alberta creamery butter than ever before is going to the British

bees in six apiaries throughout the alpine irrigated district. Mr Deideins that Southern Alberta is one of the finest bee districts in the world certainly the best in Canada.

Seed Grain and Relief

The Dominion Government evident does not contemplate providing seed grain and relief. In a telegram received by Hon. Geo. Hoadley, Minister of Agriculture, from Hon. Chas. Stewart, Minister of the Interior at Ottawa, Mr. Stewart states that the patch published in Alberta papers a few days ago to the effect that the Dominion Government would bear a share of the cost of seed grain and relief for settlers in the drought areas.

was in error, and that the only decision made by the Dominion was to bear one third of the cost of removal of settlers from these areas to other portions of the province.

Immigration Agreement Signed

By the agreement signed on August 20 by Hon. J. A. Robb, for the Canadian government, and Lord Arnold under secretary of state for the colonies, the Overseas Settlement committee has assumed an obligation amounting to \$4,500,000 covering a maximum period of three years. The Canadian minister's contention in urging this agreement was that if Canada provided the land, Britain should do the financing, inasmuch as the successful settlement of surplus population is in the British interests. Under the scheme the Canadian department of immigration will lend its machinery to carry out the administrative work of settling the new arrivals.

Calgary Facilities to Be Improved

Extensive plans for improving terminal facilities of the Canadian National Railways at Calgary have been in hand for some time, according to an announcement made in that city by Sir Henry W. Thornton, during his recent inspection trip. The object of the changes will be to bring about more efficient handling of traffic in the city and to increase yardage facilities for handling larger traffic in the future. When the plans will be carried out depends on financial and economic conditions.

Alberta Fox Farms
Alberta has now 44 fox farms which is nearly double the number recorded in 1922.

Alberta's Fish Production
Fish production in Alberta in 1923 totalled in value \$438,737, according to the Dominion Bureau of Statistics.

Prince's Stock Winners

King of the Fairies, a white Shorthorn pull bred on the farm of H. R.H. the Prince of Wales, in Britain and brought to his Alberta ranch as a three-year-old has been awarded the gold medal offered by the British Association of London for the best bull shown in Western Canada by a Canadian exhibitor. The award was made in Regina recently. This bull has been granted champion wherever he has been shown and is the principal stock bull at the ranch. The ranch was also awarded reserve champion on a red yearling Shorthorn bull which was also bred in the Old Country by the Prince of Wales and brought here last year as a calf.

Honey in Alberta
Between 35,000 and 50,000 pounds of honey in his first year in the bee business in Southern Alberta is the record which George Reidel expects to set up this year from his 300 colonies

Augustus D. Curtis of Chicago, Ill. and Geoffrey H. Bushby of London, England, whom he rescued from death after the latter had fallen exhausted following his flight from within 30 feet of Kilauea volcano during his recent eruption.
The "Big show" happened while the S.S. Empress of Canada lay at Hilo, H.I. and many of the round-the-world passengers were ashore viewing the picturesque sight of the Hawaiian volcanic region. Mr. Bushby had left the party to obtain a close-up of the House of Everlasting Fire when the eruption of May 17 occurred.

The Wainwright Star

(Adapted From "The Vorkton Ent episode")

Every meeting, whether of the public, or of a society, club, or association, should be advertised in the local paper.

By advertising the meeting, those interested have an opportunity of knowing about the affair beforehand, and can plan accordingly.

The chances of getting a good attendance at these functions are increased by newspaper advertising; because the paper carries the message to its readers, while other forms of advertising, such as posters, handbills, etc. require the reader to come to them, and they cost more.

Teas, Sales, Dances, Concerts, etc., can all be given publicity through the columns of the local paper.

Implement, Feed, Seed Grain, Stock, Houses for sale or rent, all these can be advertised cheaply and effectively through "The Star".

The advertisement will be read by everyone in a wide district, and the result from it will thereby be increased.

Advertising in the local news column is 10c per line per issue.

CANADIAN BRIEFS

An initial payment on basis of No. 1. Northern at Fort William of \$1.00 per bushel has been agreed upon by the conference of Alberta, Saskatchewan and Manitoba pools held at Regina last week.

An Athabasca hotel keeper has been fined for admitting boy into the bar room.

During the first four months of the present fiscal year Canada has decreased her imports for home consumption by over forty million dollars, whilst exporting an increased amount of over twenty million dollars.

According to the Labor Gazette the cost of living has declined somewhat being now \$9.90 as against \$10.17 at this time last year.

An experimental shipment of thirty pounds of Canadian cher has arrived safely in London, England, a journey of over 5,000 miles.

The five new cruisers shortly to be laid down by the British Naval Office will be large and have marine engines more powerful than any yet afloat.

The firm attitude of the British Government has cooled the Egyptian, insurgent elements which caused a disturbance at Atbara and Khartoum.

Canada has one of the world's leading producing mines in the Hollinger.

Canadian newspaper mills have a capacity of over 5000 tons of pulp daily.

Judging by tennis fashions this year, we don't need to wait for the next war for women to bare arms.

There is no foot and mouth disease among the cattle of this district. Some anxiety was experienced in this matter last week, when suspicions were aroused by symptoms shown by a cow. With commendable speed Mr. Truman Varty reported this matter to Constable Moses A.P.P. and it was referred to the provincial authorities. The provincial veterinarian made inspection and pronounced the case to be one of tuberculosis in an advanced stage. The animal was destroyed and fears of worse trouble set at rest.

Corn shows will be held in Manitoba, Saskatchewan and Alberta next fall. Exhibits will be confined to corn exclusively.

New dance steps are being devised for the winter by dancing masters. Are they seeded?

It is announced that the Saskatchewan Co-operative Creameries have in contemplation the establishment of a cold storage plant on the Pacific coast. It is umbia fruit growers will take advantage of the cold storage facilities, which this company has to offer on the prairies.

A cheese factory has been established at Duck Lake in the Prince Albert district, Saskatchewan. The farmers are behind the enterprise and are confident that they will make a great success of it.

The first Ontario wheat of the 1924 crop was sold on Woodstock market at \$1.25 a bushel.

France has evacuated Offenbourg and Appenweir, Baden, Germany. Silence on both sides attended the departure of troops but immediately afterwards German Republican flags were flying from almost every housetop.

A profit of \$4,305,629 on liquor sales, fines, tax on beer, etc., was realized by the province of Quebec in the fiscal year just ended.

Eamonn de Valera, the Irish Republican leader, recently released from prison, has reiterated his former policy of independence. Judging from his fiery speech in County Clare, prison has not moderated him.

American Music Is in Process of Evolution

Memories I recall of all your prettily little love tales

Sybil Vane of Covent Garden Has Great Faith in Our Melodic Future

What's it all about—the queer, weird noise America has lately heaped music?

Sybil Vane, famous as the youngest operatic star in the British Empire, says eventually it is going to be real music, the very realiest any country has ever known.

"I have been watching the evolution of your music," the witty Covent Garden prima

donna confessed, "and I have been amazed. This is a wonderful country and the most wonderful thing in it is the music."

"The light sentimental ballad like 'Love Tales' is perhaps the best example of what I mean. It is like a faintly capricious with all the mellow flow of a modern fox trot and it has a strain of the stately that is a reminiscence of other days."

"Do you know what I think—Yes, honestly? American music, the kind you are developing today, is going to be your most precious heritage to coming generations!"

Canada has 121 dailies and 1,068 weeklies—66 in French and 30 in 13 foreign languages.

Canada has the greatest asbestos, nickel and cobalt deposits in the world.

Canada possesses the world's largest pulpwood resources.

Canada has the largest inland port in the world—Montreal.

She: "You probably will if my husband sees you."

Alberta Butter For Britain
Shipments of Alberta creamery butter continue to be forwarded direct from Alberta producers to the British market. This movement assumed some proportions last year, and the marketing of the butter direct by the Alberta manufacturers proved very satisfactory. Recently three car loads, left Edmonton over Canadian National lines, via the Panama Canal, for the old country and other shipments have been made during the past few weeks from Calgary. The increasing popularity of the Alberta product on the British market was demonstrated by Hon. George Hoadley, who, on his return from this month brought back with him offers to handle large quantities of Alberta butter provided the supply could be made continuous throughout the year. This feature of the matter is being taken into immediate consideration.

RES. 93

Items of Local Interest

It might be well to remind our readers that the reduced prices for auto licenses do not come into effect until October 1st. A word to the wise, etc.

We are glad to that Mrs W. Fox who has been in the city for an operation for eye trouble is now getting along nicely.

Many in this district will be sorry to learn that Mrs. Archib. Crawford, who resided here some years ago passed away at Toronto on August 15th last.

***The L. A. of Grace church announce a musical evening at the church on the evening of Friday September 17th at 8 p.m. Refreshments will be served and all are welcome. Admission 25c.

Work has now started in earnest on the erection of the L.O.D.E. clock tower memorial at the junction of Second and Main and Contractor Bailey figures about three weeks will complete the actual building job.

Mr. and Mrs. M. Pawling left last week end for the city where they will reside for the future.

Miss Vesta Lochhead, accompanied by her friend Miss M. Friel, arrived from Glasgow, Scotland, on Thursday last on a visit to her sister Mrs L. Pickard.

***For dry wood and Black Diamond coal ring up Atlas Lumber, phone 57 Service at all times.

Mr. and Mrs. H. Herbert are now back from their auto tour through the south of the province, and report an enjoyable time while away.

An old westerner, an old timer and an old old man was in town this week in the person of Mr. T. Sanderson from Vancouver. Tom was on his way to visit his old home in Manitoba and was picking up pointers on the oil situation in this new field en route.

We learn that Mr. J. A. Horton, of Viking, is making arrangements to start up a dray business in town in the near future.

***While you think of it! Get your game license at once from Washburn's hardware.

We were favored with a visit from Editor Thumell, of the Viking News on Saturday last, and in conversation we learned that the natural gas is the only solution to the cheaper fuel and greater comfort problem. As we told our guest, "it can't come to quickly to please us!" He was accompanied by Mr. J. L. Horton, of his home town and the pair returned by auto, after a run round the wells in the district.

Mrs. C. Ham and her sister Miss P. Springer spent last week at the Gyo carnival in the city and report a good time.

***There is a severe penalty for being caught with a gun having no license! Make sure you get your game license from Washburn's hardware without delay.

***We have "wood to burn." And it's good wood, too! Our phone is 1-0; Imperial yard.

We regret to learn that Mr. Layne, one of the new school teachers, has been taken to hospital to undergo an operation. Principal Suckling has made arrangements for a deputy however.

This week during the extra exams at the school, the Revs. J. McLagan and G. Pybus have been sitting as presiding examiners.

***The coal strike is still unsettled! Fill your bin with Black Diamond from the Atlas yard while the price is low. Phone 57 and we'll send a load.

Mayor Gerow and Mr. Rutledge motored to the city this week on business connected with their new oil company.

Arrangements are now taking shape for the holding of the annual teacher's convention for the Wainwright inspectorate. This will be held some time next month.

We regret to learn that Mr. Hugh Kemp has been bereaved by the loss of his brother, who passed away at Dauphin, Man., last week.

***Don't start out half prepared! When getting your shells get your game license also at Washburn's hardware.

Mr. T. Billings, of Billings's bakery wishes to inform the public that despite rumors to the contrary, the delivery wagon marked "Ideal Bakery" is not and never has been in use for the purposes of bread delivery from their store.

Mrs. Florence Fraser and children who have been visiting Mr. W. Gano, have now left for their home in Winnipeg.

***Threshermen and blacksmiths will do well to get their coal supply from the Imperial yard; phone 1-0.

Mr. and Mrs. A. Dupre have now returned from their trip on a visit to friends in Edmonton and St. Paul de Metis.

Mr. Q. Kent, who has been teaching at Smoky Lake was visiting at the home of Mrs. L. Howes, and is leaving for California soon to join his parents.

Thousands of

women are growing

new hair and

putting an end to

scalp ailments with the new Van

Ess method of

treatment. Van

Ess Liquid Scalp

Massage makes it

easy to give the

scalp proper care and to have a

head of abundant and glorious hair.

The rubber nipples on the patent

applicator feed the treatment directly

to the hair roots and at the same

time gently massage the scalp.

SECOND AVE

Mr. C. Newport, of Maraden, was in town last week on business.

Mr. Jack Sutherland is spending a few days on a trip to Vancouver.

***The only real coal for value and service is sold by the Atlas yard. Black Diamond has 'em all beat! Order a load at phone 57.

Miss M. Donovan spent last week in the city on a buying trip.

Mr. Jos McLellan arrived here from the east last week, and is fixing up his trucking machinery for work this fall.

The W. I. will meet at the home of Mrs J. Welch on Saturday afternoon next when a full attendance is hoped for.

Miss E. Watson has now returned to town after a visit to her father in the north country.

Dr. and Mrs. H. L. Coursier arrived home last week after an extended honeymoon and have taken up residence in the Chas. Love house.

Mr. Geo. Harper is back at his desk again after his annual vacation.

Quite a number of out-of-town pupils have been writing their exams here this week.

Mrs. H. Fieldhouse has been entertaining guests this week in the persons of Mr. and Mrs. Appleby.

Dr. Dodds, who was in charge of Dr. Coursier's dental practice during his absence has now returned to Edmonton.

***The Imperial yard has a good fresh supply of Luster steam and Rosedale smithing coal. Call us up 1-0 right now.

The work on the new Knowles house on Main street is being rushed to completion by Mr. A. T. and his men, and the house for Mr. Woodward on Third avenue is also taking shape quickly at the hands of the builders.

Just as we go to press we learn with regret that Mr. Bertrand Stafford whom many will remember as having been of the staff of The Star for some time, died suddenly at Vancouver, on Monday, and sympathy is expressed with his relatives. His brother Carl is employed at the local yard of the Atlas Lumber Co.

***Albaqua is a lime whitewash; sanitary, ready to use, and won't rub off. Phone your orders to the Imperial Lbr Co.
